

January 31, 2016,

Hello Trappers:

Things are moving right along towards the Fur Sale on 12 March. My wife and I will again be taking early signups as noted in the procedures section on this web site. I know many of you are disappointed in the market right now but if we do not continue doing what we are doing and teaching others how to do it, WHO will?

The Training Coordinator is gearing up for a spring and fall of training programs around the state. There is already one scheduled in Spotsylvania in April and more to come.

And the State Convention is coming up 8-10 July.

Don't forget the National Convention in Michigan in early August.

Trapper ED
