Looks like we are in a new year whether we are ready or not. Man time flies by. I hope you guys have been doing well with your trapping, and hope you do well with your sales. The value of fur this year may sound a little down, but some think it won't be as bad as it seems. Time will tell soon enough. Trapping is work, as well as fun, and a decent fur check makes it worth it. On that, it sure was shocking to hear about Tom Tyree losing his home to fire. Most of us have heard of ways to help him with a contribution and I know there are more than one address to send a donation. Also a site online can be found on the VTA website group. Contact me, our president Don Shumaker, or Ed Crebbs for info on how to help.

Our district will have a meeting at the fur sale in Fishersville. The time will be flexible, we will just play it by ear as the day goes. Come on out, even if you're not selling fur. We will talk about a place to have a late summer, early fall gathering, among other things.
