We hope this report finds everyone doing well. Things have been slow for us here in District 9 with the wet weather. We anticipate things picking up though with the close of duck season giving us more time to water trap. We had a great turnout in October at our meeting/demo day. Folks attending had the opportunity to learn new land and water techniques. We would like to thank Bill Coffee and Kevin Hart for demos as well as Dennis Smith for setting up a live fox line. We are planning our next one for late March...stay tuned for exact dates. Until then hope everyone has full traps!
